

DAVI KERR, CONSULTANT, BRAZIL

All the information in this case study was generously provided by forensic expert from Campinas, Brazil. In his line of work he investigates child exploitation, fraud and forgery, theft and handling, computer crime, harassment and abuse, industrial espionage and criminal damage.

The business challenges that led Brazilian investigator to evaluate and use Belkasoft Evidence Center:

- Delivering results in time
- Finding all relevant data
- Analyzing wide spectra of applications
- Looking for cost-effective solution
- Looking for easy-to-use tool which doesn't require time-consuming trainings

“

BEC helped me analyze a cloned hard disk very nicely!

”

Davi Kerr finds the following BEC viewers the most useful in solving cases:

- Case explorer
- File system explorer
- Registry viewer
- Hex viewer

The benefits Davi has experienced using Belkasoft products:

- Simple User Interface
- Mobile, hard drives and cloud acquisition
- Advanced low-level analysis
- Amount of artifacts and data types supported out of the box

General impression

“I found BEC very straightforward to use and it helped me analyze a cloned hard disk very nicely!

The trial period is a very good way of letting me know your product, its pros and cons, so I can assess it against the other options. I am very thankful for the possibility to make a ‘driving test’ on BEC!

You and your product are great!”
